

BEYOND MANUFACTURING

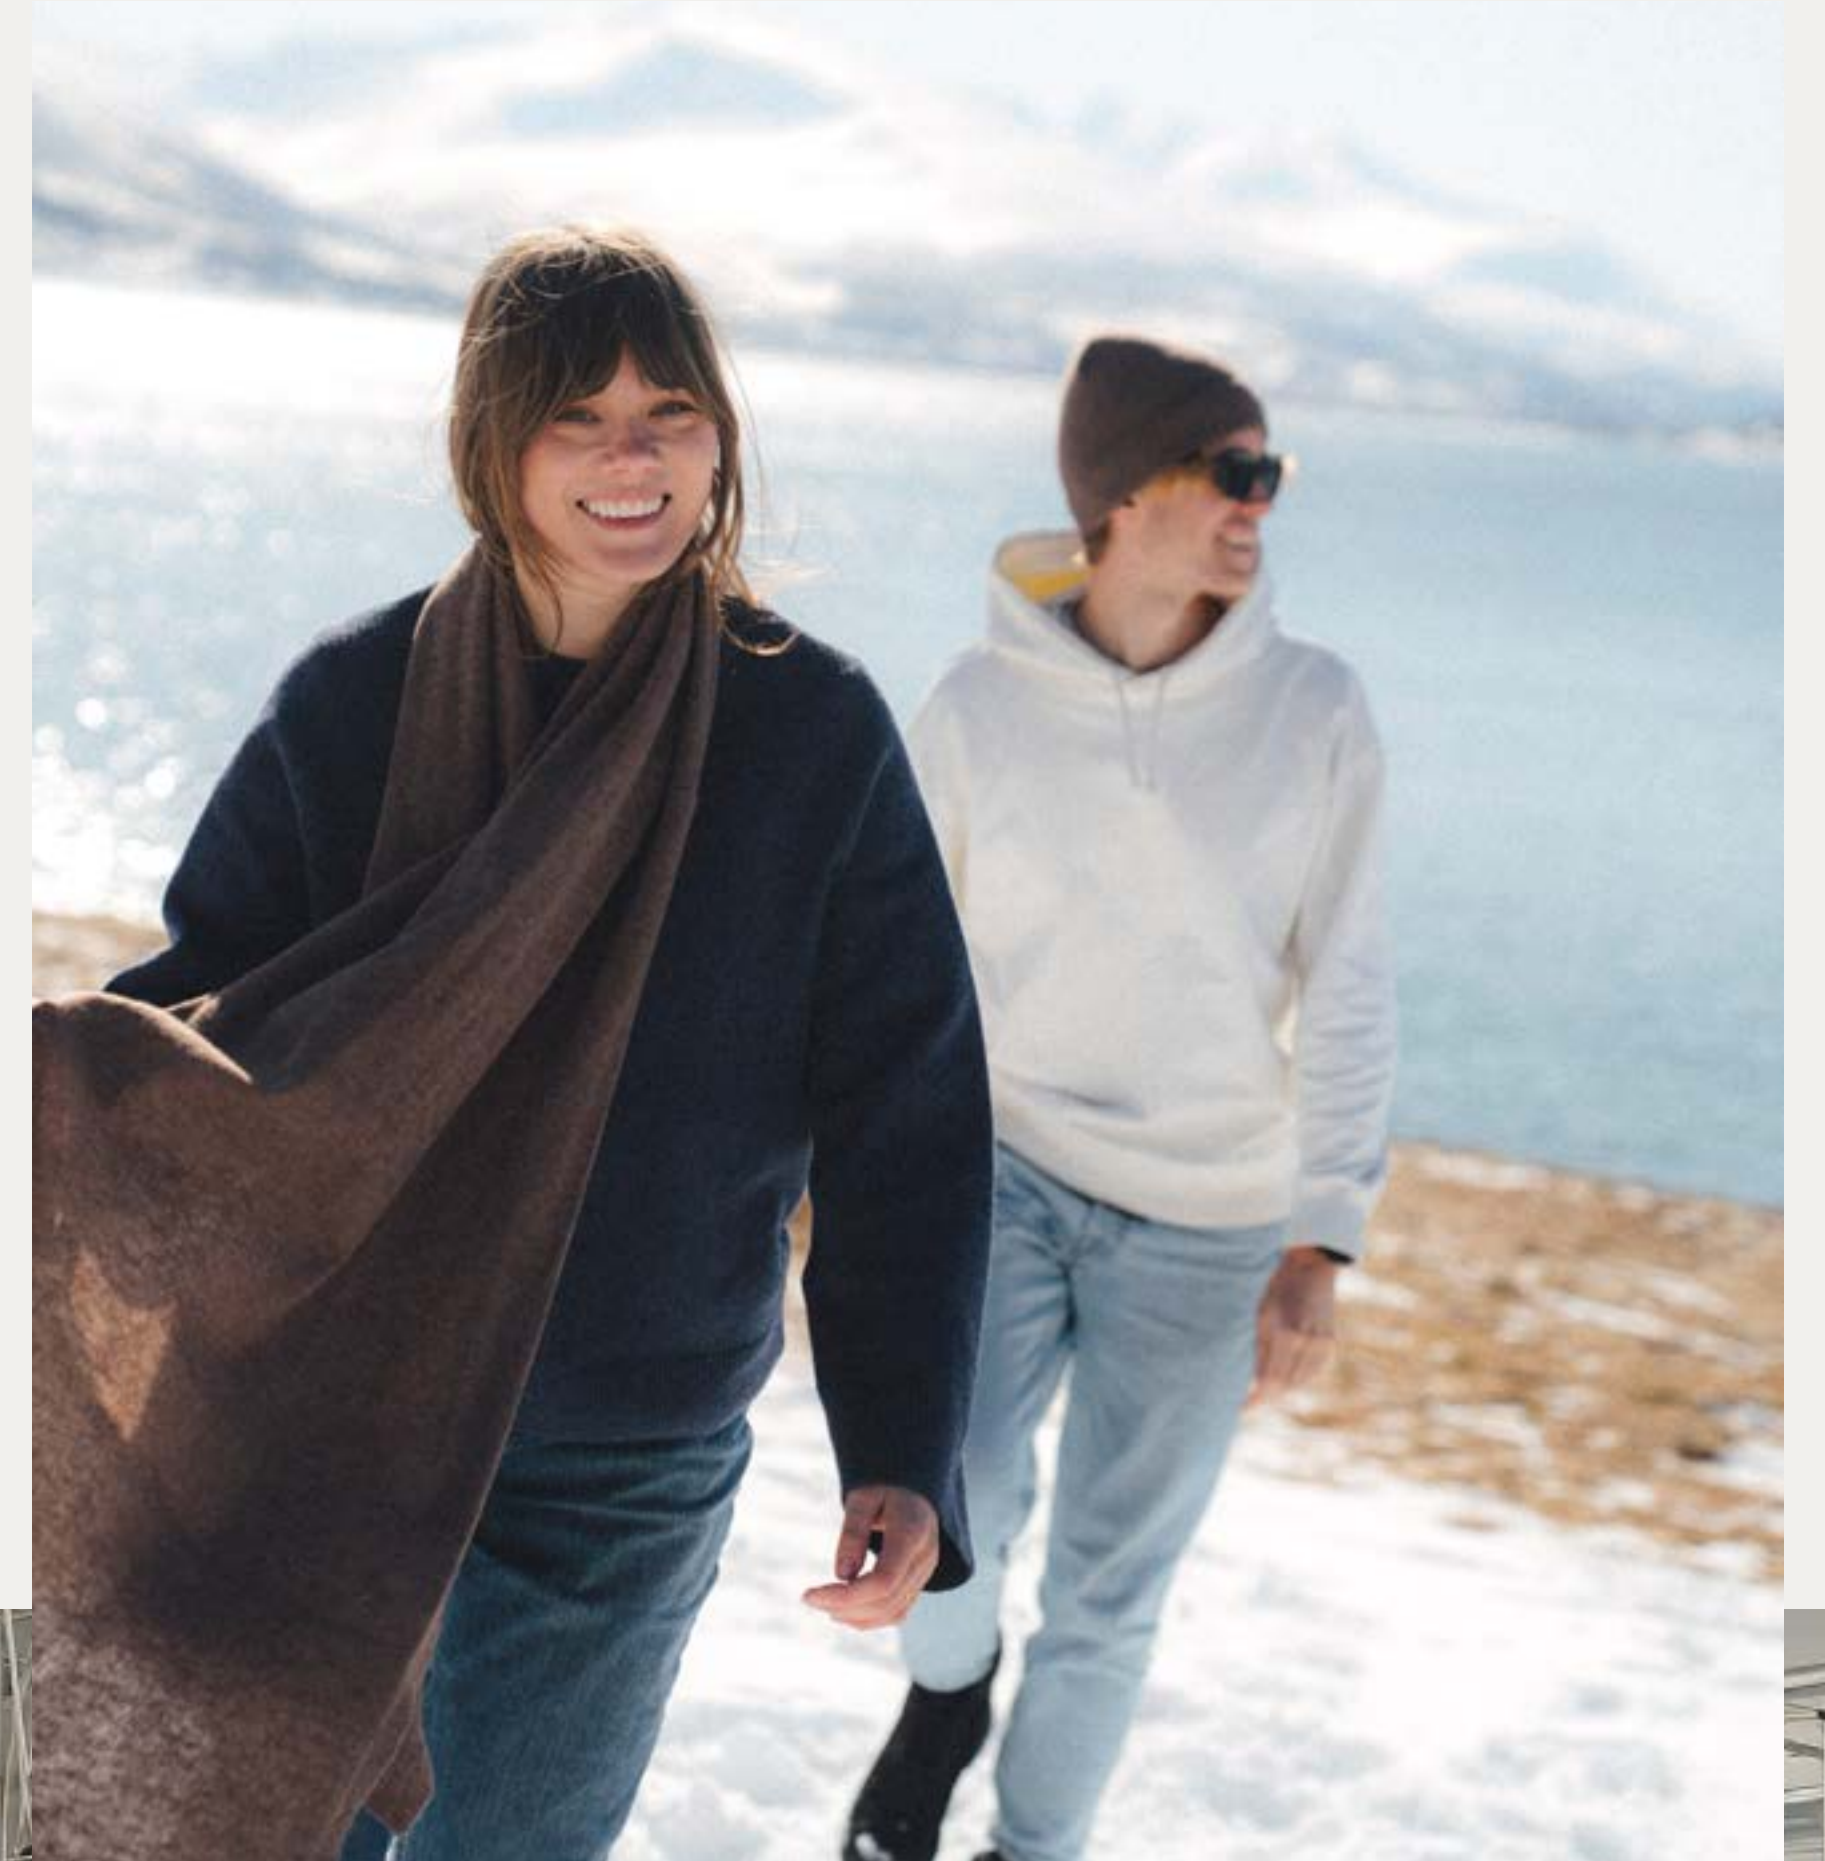

LOOKBOOK

knittread.com

From Yarn to Finished Product

**We help brands achieve
RWS certification and build
collections that embody
responsible fashion
values.**

Products We Create

We specialize in the production of knitwear and accessories such as:

- hats, scarves, turtlenecks, hoods,
- sweaters, vests, t-shirts, casual apparel,
- blankets and baby blankets.

Each order is executed individually, with materials, design, and finishing tailored to the brand's needs.

More Than Production – We're Your Partner

We work exclusively with yarns from trusted, renowned, cruelty-free and fully certified sources. Our main partner is a family-owned Italian spinning mill that:

- holds the Cradle to Cradle Gold certification,
- operates on hydro and photovoltaic energy,
- carries out all production stages in Italy, ensuring the highest standards of sustainable development.

Our entire production process undergoes certification audits, guaranteeing our clients full transparency of the supply chain and an ethical approach at every stage of cooperation.
